# Consent for Treatment Agreement

---

Thank you for choosing Imagine as your treatment provider. The following information is provided to you to help clarify any questions you might have before, during, or after treatment.

## \_\_\_\_\_ **Therapeutic Services** (*Please Initial*)

Psychotherapy is not easily described in general statements. It varies depending upon the personality and relationship of the therapist and client. Although successful outcomes are more likely, outcomes are not always predictable due to several factors. Among these factors are clients' reluctance to be totally truthful with the therapists, difficulty in carrying through on therapeutic goals outside the sessions, continued use of mood-altering drugs, and inconsistent commitment to change. It calls for active participation by you, the client.

Counseling can have benefits and risks. Since therapy often involves discussing unpleasant aspects of your life, you may experience uncomfortable feelings like sadness, guilt, anger, frustration, loneliness, and helplessness. On the other hand, psychotherapy can have lasting benefits for those who go through it. It can lead to better relationships, happier families, improved mood, solutions to specific problems, and significant reductions in stressors. Most people experience a better quality of life.

Our first visit will involve a thorough assessment to determine the appropriate level of care. In some cases, particularly with addictions clients, we may recommend medical detox, inpatient alcohol and drug treatment, or enrollment in Imagine Behavioral Health's Intensive Outpatient Program. Some clients may only need a weekly individual session. The assessment assists in creating a personal Treatment Plan that guides us through the journey toward your successful therapy. Therapy involves a large commitment of time, energy, and money; so you should feel fully informed and in full agreement with all therapeutic decisions. Whenever doubts, questions, or other issues arise it will be your responsibility to seek answers or assurance.

Imagine employs and utilizes a multidisciplinary team of professionals which includes Masters Level Therapists, MDs and Interns.

## \_\_\_\_\_ **Therapeutic Relationship** (*Please Initial*)

Your relationship with your therapist is professional and therapeutic. In order to guarantee this, it is imperative that we not have any other type of relationship with you. Our code of ethics prohibits us from socializing with you, receiving special favors from you or your business, or otherwise establishing or attempting to establish any relationship outside the narrow boundaries of our therapist-client relationship.

## \_\_\_\_\_ **Document/Letter Preparation Fees** (*Please Initial*)

We also have a charge for document/letter preparation. This includes disability paperwork, work related documents and letters for legal matters. The fee is \$25 per 15 minutes and is billed in 15 minute increments.

I have read and understand the above and I agree to receive counseling services from Imagine Behavioral Health and/or its therapists.
